

The **Communauté de Communes Cœur du Var** invites you to **discover its territory on foot, by bicycle or otherwise on horseback.**

The paths are sported and lined with directive information. Each directive post is marked with unique reference number and a name referring to the GPS coordinates (wgs84). They are materialized on the maps by their number. The strips indicate the next signpost and its distance in kilometres. They help out the general orientation. In some communities, a code (coloured spot on the strip) defines a circuit proper to the community.

The yellow, white and green paint marking (PDIPR) or the red and white (GR) one guides the hiker from the directive posts. It is affixed on the trees and rocks bordering the itinerary, and on the signposts.

Reminder on the marking :

Straight on

Change of direction

Wrong direction

Good to know :

The average speed of a hiker is estimated to 3,3 km/h. The difficulty of the roads is estimated according to the distance in the difference in altitude. Get fitted with adapted shoes, water, and eventually a hat.

Don't overestimate your biking hiker skills, keep control on your speed, wear a helmet, and don't forget the necessary equipment for repairing. Some roads or parts may force you to get off your bike.

Some tours go past proprieties for which a right to go was to be negotiated. Any damage is likely to annul the authorization to go past and revoke the hiking itinerary.

Do take use of the path only when in authorized period : find out about the state of opening of the forested massif (in the summer in particular).

During the hunting period (autumn, winter), follow the hunters' advice.

The outside conditions can have an impact on the state of a road. It belongs to each hiker, whatever activity he may be

doing, to make sure of the itinerary he is taking, and to be responsible for himself.

Don't forget that you are responsible for the damage you cause, might it be to yourself or to others, and to possessions due to a non adapted behaviour towards the environment and to predictable dangers.

You can meet other users of the paths : farmers, pedestrian hikers, horse riders, bikers, hunters, etc... They are in right, just as you are, to use the paths.

The hiker's chart

- Look but do not touch, respect the orchards, do not pick up anything, do not take any sample of species and be careful not to disturb the fauna.
- Be careful with the signalization which concerns you, may you be pedestrian, horse rider or biker. Stay on the sported path.
- Do not make fire, do not throw cigarette ends, even lighted off.
- Take your rubbish back with you.
- Stay polite and discreet.
- Use the path only on foot, on a non motorized cycle or by horse.
- Make sure that you close any barrier you bump into after getting over them.
- Keep your dog on a lead.

Useful contacts :

Météo France : 0 899 710 283

Rescuers : 112

Firemen : 18

Let us know if you come across any anomaly while you use the topoguide or while you go past the paths.

Flassans s/ Issole Terre Longue

Easy hiking • Distance : 7 km

Flassans s/ Issole Terre Longue

Easy hiking • Distance : 7 km • Walking time : 2h07

The Terre Longue forest spreads over the south part of the community. It offers a typical Mediterranean forested undergrowth in a limestone area, where the ground used to be cultivated in the old days.

D Start

Car park Les Grands Prés : go underneath the DN7 after the Gavoty hall.

Yellow and white/green marking (PDIPR)

Change in altitude

Difficulties :

• For bikes, carrying after 30b.

Caution :

• 500 m crossing on the D78, which joins Flassans to Pignans.

On the way :

- Vineyards and forest
- Nice dry stone walls
- Old lavatory
- The Issole

0 200 m
